

Name: Dev J. Jariwala

Sem: 7th

Div: A

RollNo: 19

Assignment 3 of FullStack Development

Question 1: Develop a user registration form (fields: username, password, confirm password, email, gender, hobbies, upload profile pic, upload other pics) (use text box, radio, checkboxes, file upload) using Express. Form should also contain file upload (single, multiple) with validations.

- In case of invalid data, display errors along with all previous field values.
- In case of all valid fields, display all data and images in a well formatted tabular form.

and allow the user to download that file using Express. Develop route for file download.

(Use express, ejs, express-validator)

User Registration Form

- Username is required
- Enter valid email
- Password must be 6 characters
- Select gender

Username:

Email:

Password:

Confirm Password:

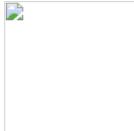

Gender: ☒ Male ☐ Female

Hobbies: ☒ Cricket ☒ Reading ☒ Music

Profile Picture: No file chosen

Other Pictures: No file chosen

User Details

Username	abc
Email	abc123@gmail.com
Gender	Male
Hobbies	Cricket, Reading, Music
Profile Picture	 Download
Other Pictures	

Question 2: Express Login application with file session store. Functionalities are login, 2 protected routes, Logout.

Login Form

Invalid Username or Password

Username:

Password:

Login

Question 3: Express Login application with redis session store.
Functionalities are login, 2 protected routes, Logout.

Login Form

Invalid Username or Password

Username :

Password :

Login

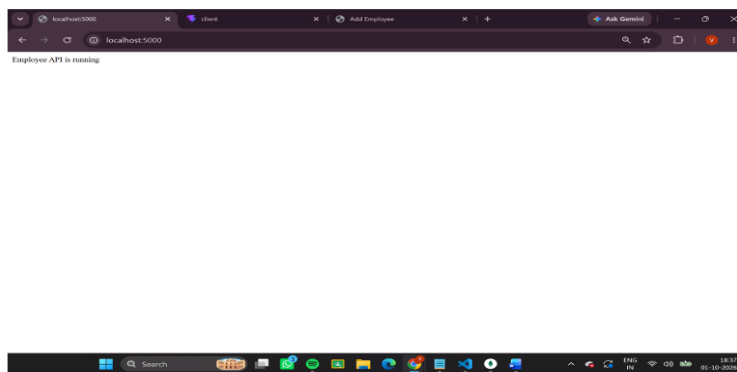

Question 4: Develop login for an ADMIN panel of ERP system with session, CRUD operations for employees table (generate empid and password) with salary calculation with mongoose, express and EJS template engine. Send email to employee when inserted. Encrypt the password. Logout.

Admin Login

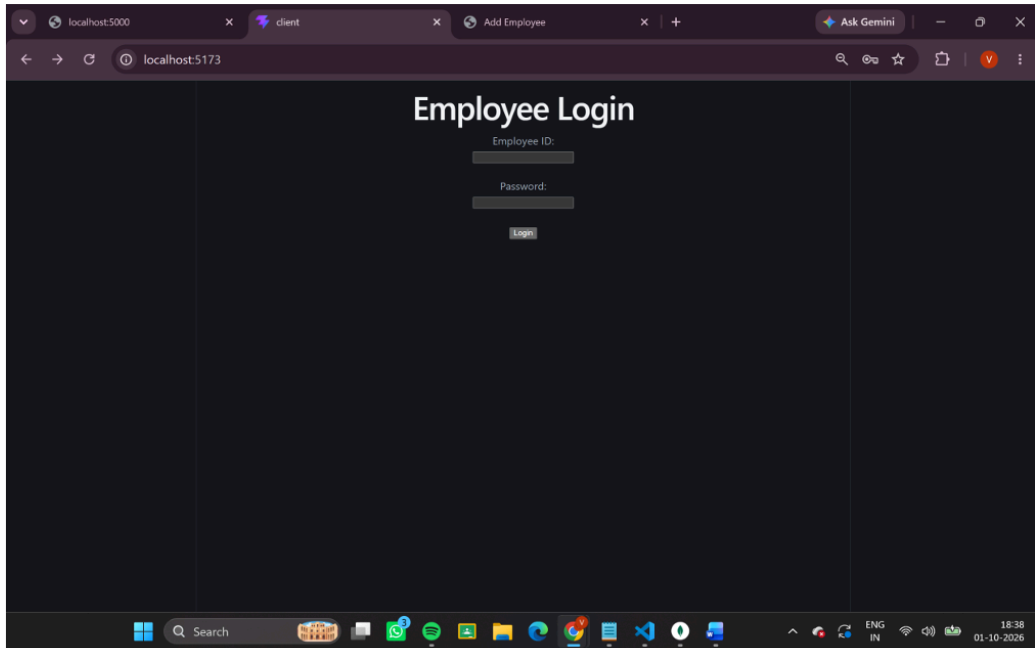

Invalid Credentials!

Question 5: Develop employee site (refer Q4) login with JWT, for employees with mongoose, express and React.js. Create a home page with following links:
-Page1) display employee profile .
-Page2) - Application for leave (fields date, reason, grant yes/no) Add, List - Logout.

Employee API working:

Employee Login screen:

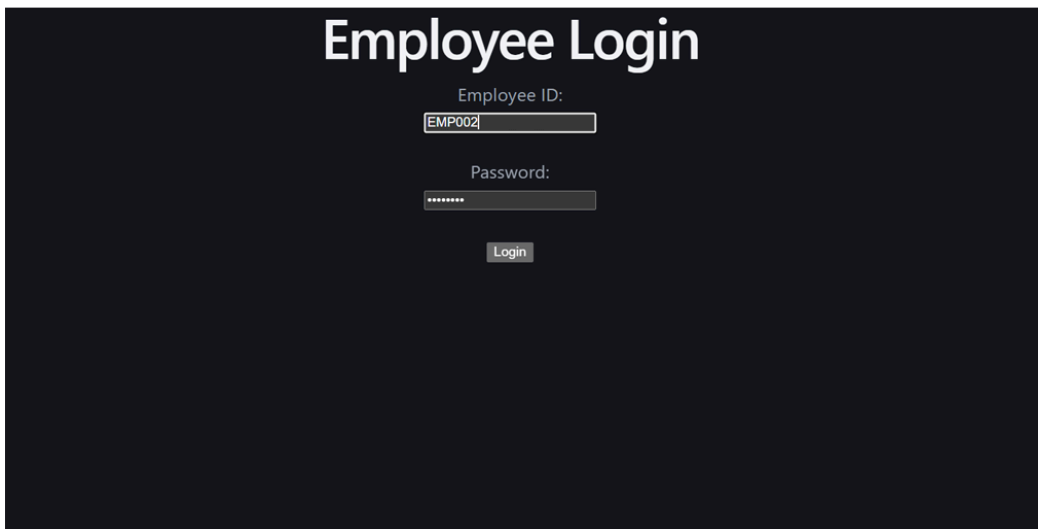

A screenshot of a web browser displaying the 'Employee Login' screen. The browser's address bar shows 'localhost:5173'. The page has a dark background with the title 'Employee Login' in white. Below the title, there are two input fields: 'Employee ID:' and 'Password:'. The 'Employee ID' field is currently empty. Below these fields is a 'Login' button. The browser's taskbar at the bottom shows various application icons and the system clock indicating 18:38 on 01-10-2026.

Employee Login

Employee ID:

Password:

Login

A close-up view of the 'Employee Login' screen. The 'Employee ID' field is now filled with the text 'EMP002'. The 'Password' field is filled with a series of dots, indicating a password is entered. The 'Login' button remains visible below the fields.

Employee Login

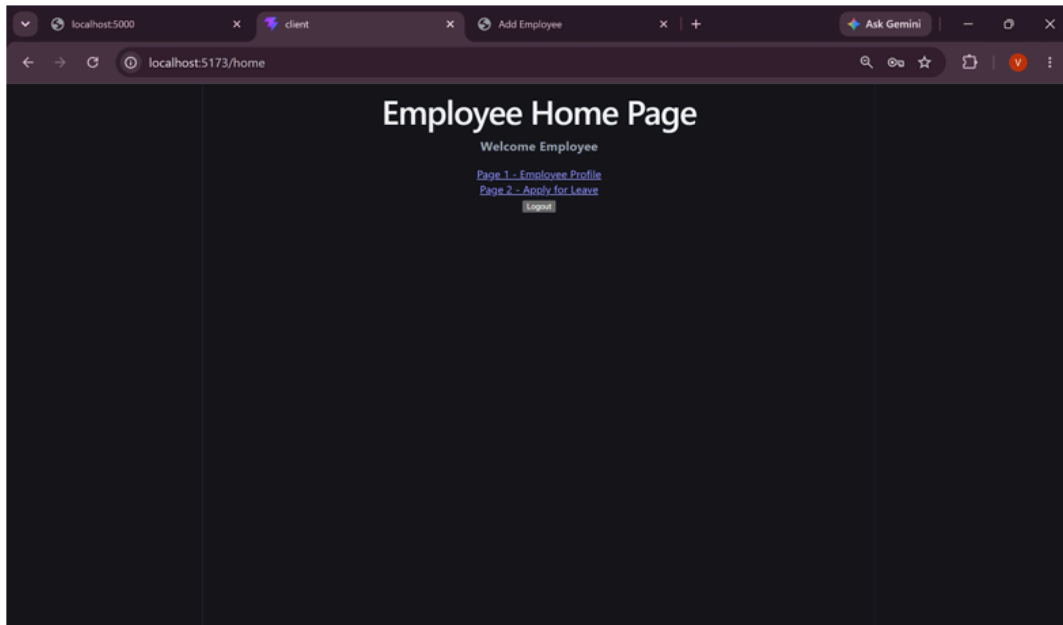

Employee ID:

EMP002

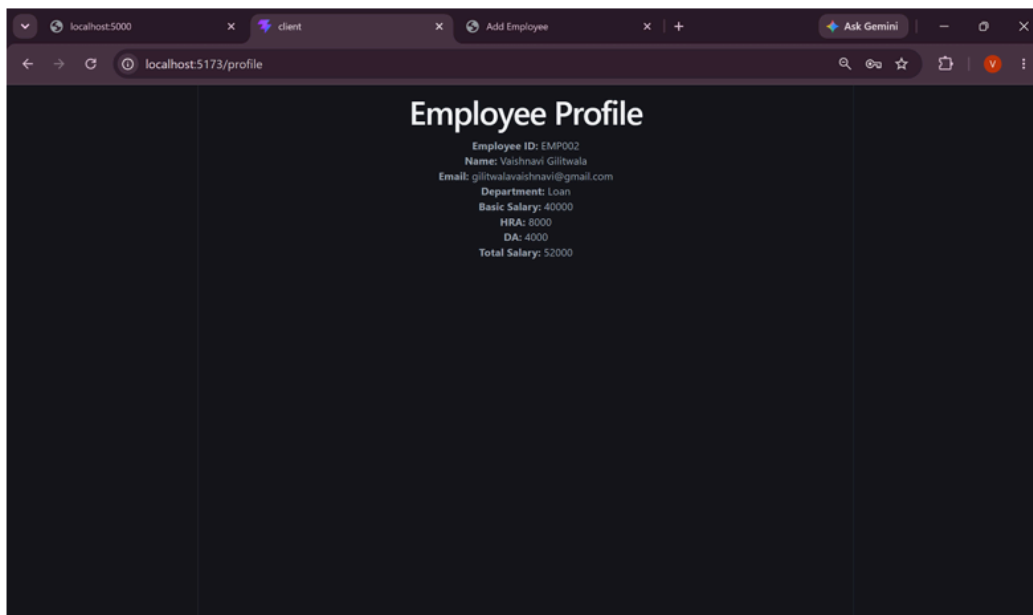

Password:

Login

Home page after login: (shows 2 links-profile,leave and logout option)

Page 1: display employee profile

Page 2:Application for leave

localhost:5000 x client x Add Employee x + Ask Gemini | -

localhost:5173/leave

Leave Application

Date:

Reason:

Grant: ☐ Yes ☒ No

Leave List

Date	Reason	Grant
------	--------	-------

Search

18:41 01-10-2026

Leave Application

Date:

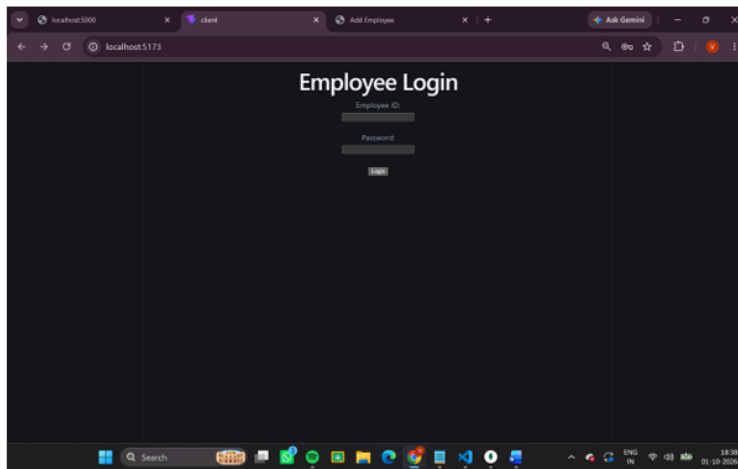

Reason:

Grant: ☒ Yes ☐ No

Leave List

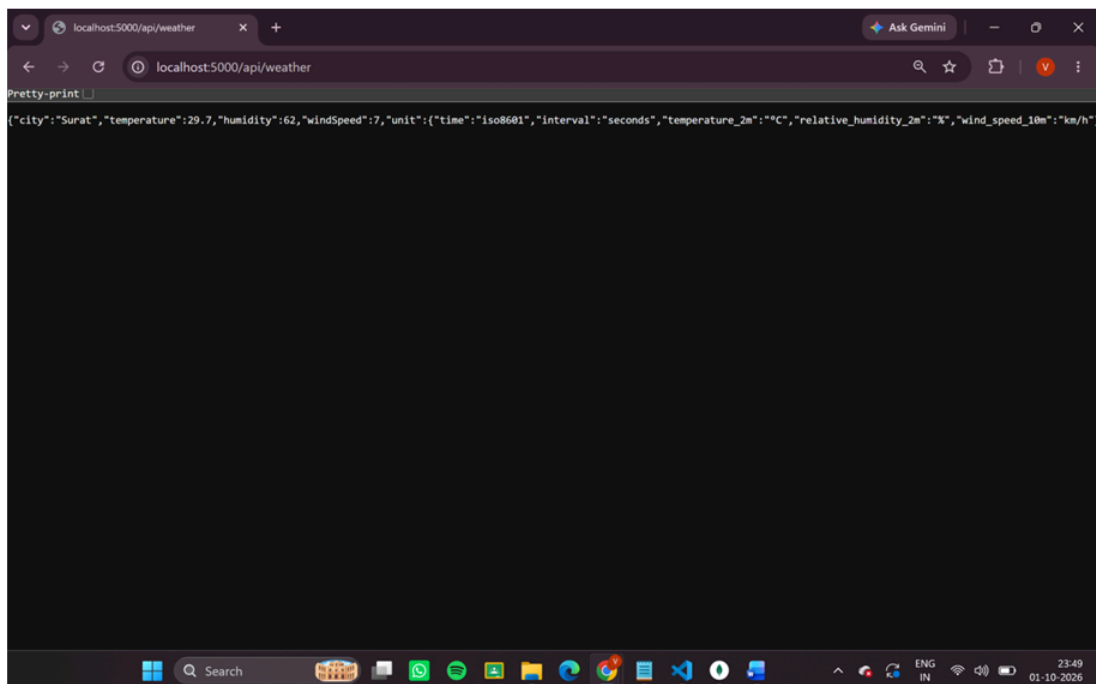

Date	Reason	Grant
------	--------	-------

Logout after screen: (again login)

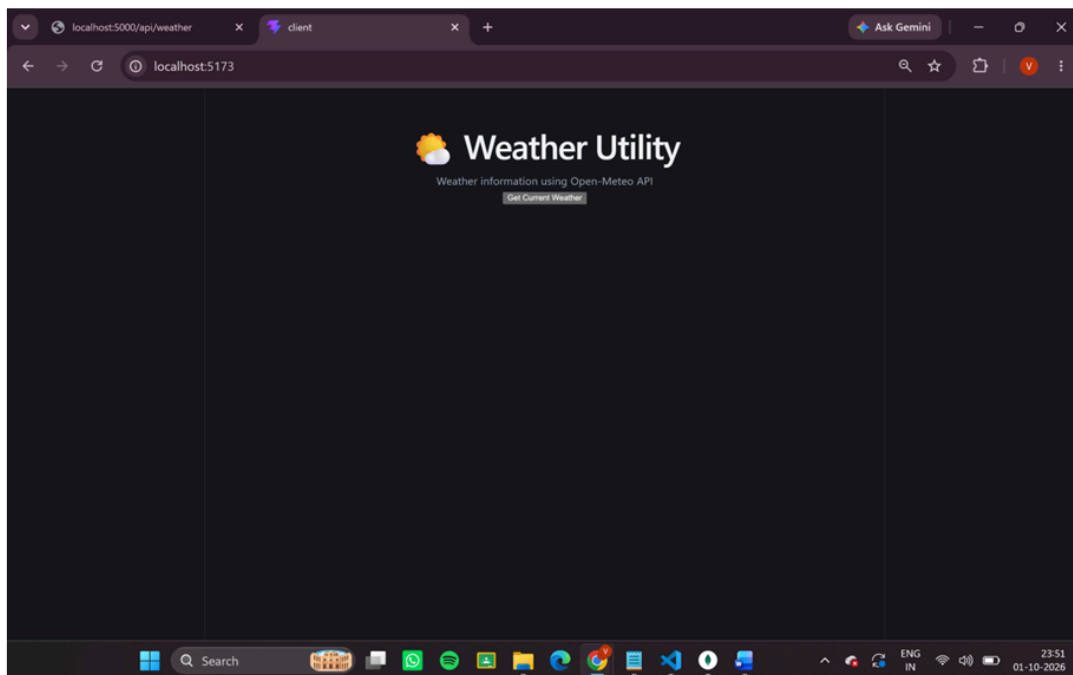

Question 6: Call any free api for a useful utility from frontend and backend.

API call(backend):

Weather utility (with frontend):

Get Current Weather:

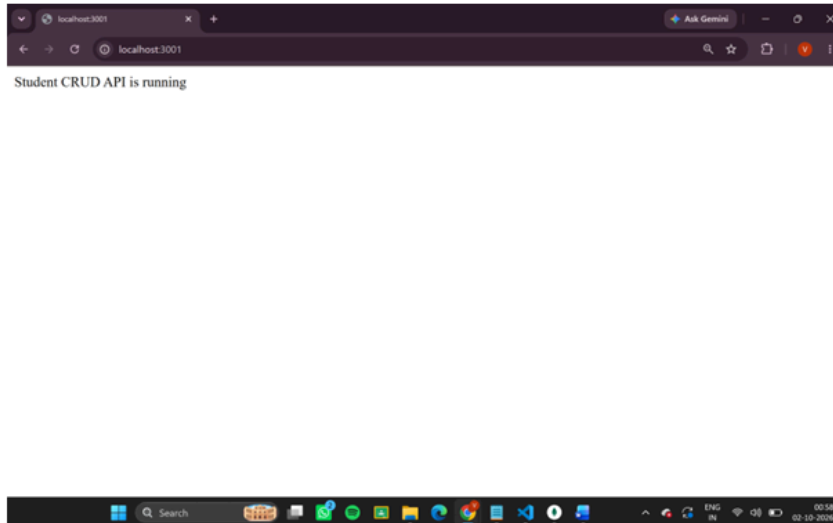

Question 7: Shopping cart with admin site and user site with (2 level) Category and Products using MERN stack.

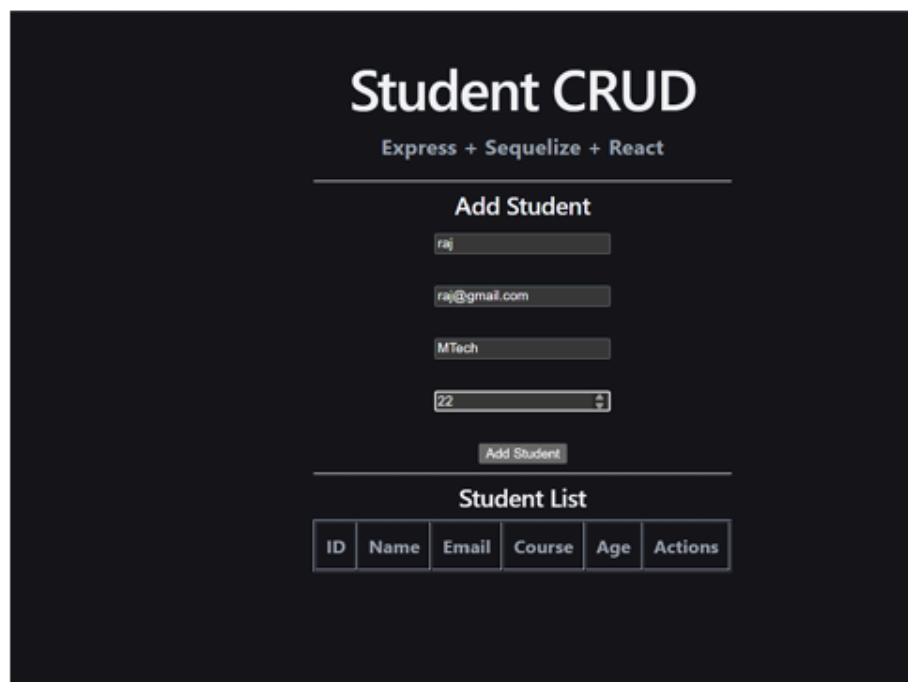

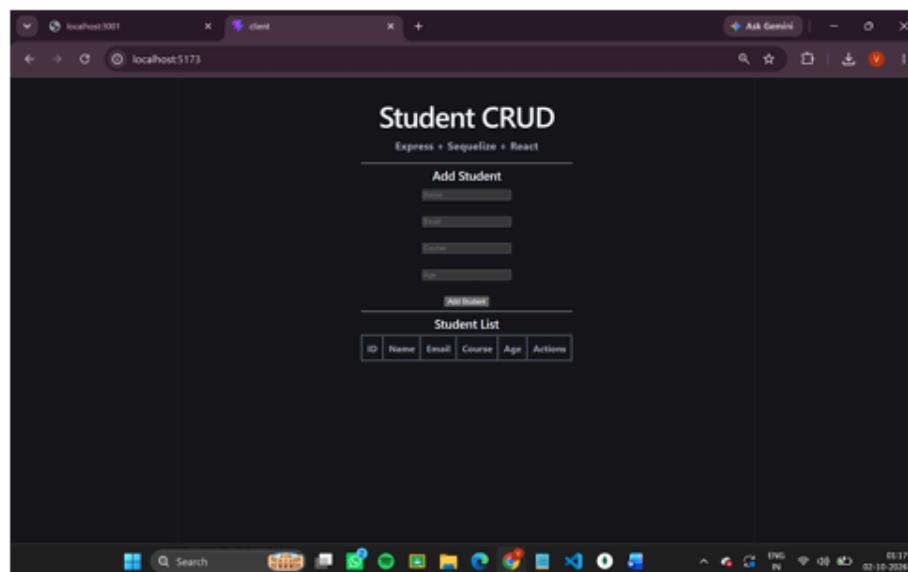

Question 8: Crud operation for Student collection using Sequelize. (Express+ Sequelize + React)

Q8:

Backend API running (student CRUD):

With frontend:

Added in list:

Student CRUD

Express + Sequelize + React

Add Student

Student List

ID	Name	Email	Course	Age	Actions
1	raj	raj@gmail.com	MTech	22	Edit Delete

Updating age and email:

Student CRUD

Express + Sequelize + React

Edit Student

Student List

ID	Name	Email	Course	Age	Actions
1	raj	raj@gmail.com	MTech	22	Edit Delete

Delete data :
